# XTRASAFE hand sanitizing system

## Form Follows Function.

Why not replace the unsightly clutter and mess of sanitizing bottles on a counter or table with a **beautiful, efficient** and **maintenance-free** XtraSafe Hand Sanitizing System. XtraSafe **streamlines safety**.

### North American Made

SafeGuard supports North American manufacturing, providing a consistent, reliable supply chain so you have your products when you need them. XtraSafe is always in stock.

### Foot Pedal Activation

The intelligent design offers simple, foot-pedal activation from a gravity fed reservoir through a drip-resistant nozzle, making it simple and hands-free, reducing exposure to viruses.

### Use Any Type of Sanitizer

XtraSafe performs equally well with gel or liquid sanitizers, regardless of the viscosity. One-way valves ensure constant pressure to keep any type of sanitizer flowing.

### Comes Fully Assembled

XtraSafe arrives complete and ready to use right out of its heavy-duty box! Nothing to assemble. Just fill it with sanitizer and it's ready to make your facility safer.

### No-Risk Warranty

XtraSafe comes with a no-risk one year warranty. Just one more way that SafeGuard provides you with security and peace of mind.

### Customize It!

Customize XtraSafe with your brand logo and message, or coordinate with the decor of your facility. The nylon sleeve can be printed in full color. It's even washable!

### Ultra High Quality

XtraSafe is designed for simplicity and reliability, and built for durability, smooth function and long life. With no sensors or complex parts to break down, no servicing is required.

### Sleek, Ergonomic Design

The streamlined design makes an impression! At 39 inches, the faucet is at a convenient height for users of any size. The sleek, metal foot pedal is ergonomically positioned.

### Compact Size

The compact design means it uses minimal amount of valuable floor space – only about one square foot, far less than the usual table with sanitizing bottles.

### High Capacity – 5.5 Liters!

The high-capacity reservoir allows for approximately 3500 applications\*, reducing refilling time. Using large size containers is proven to reduce plastic use by up to 60%.

\* Based on 1.5 ml per
